Bruce A. Van Note  
COMMISSIONER

November 26, 2019  
Subject: Large Culvert Replacement  
State WIN: 022849  
Location: **Danforth**  
**Amendment No. 2**

Dear Sir/Ms.:

The following question has been received:

**Question:** With the total length of this project totaling 200 feet, and 200 total tons of mix on the project would the department consider a less stringent paving specification for this culvert replacement in a remote location? Section 401 Hot Mix Asphalt Paving spec is identical to specifications used in large paving projects. This includes QC/QA, JMFâ€™s, Full paving train, cores, splits, incentives, etc.

**Response:** No, the testing shall be as defined in the 403 Special Provision, as this is a corridor priority 1 roadway on the National Highway System (NHS).

Consider these changes and information prior to submitting your bid on **November 27, 2019**.

Sincerely,

George M. A. Macdougall P.E.  
Contracts & Specifications Engineer
